Journal of Dentistry, **11**, No. 4, 1983, pp. 369–371 *Printed in Great Britain*

INDEX

Volume 11 Numbers 1–4 March–December 1983

Abstracts, 93, 187, 280, 367
Acrylic resin, dental, autopolymerizing, levels of residual monomer in, effect of process variables on, 80
Allison M. J.: *see* Sawyer D. R.
Amalgams, dental, physical metallurgy of, 2. Microstructure, 41
Analgesics, self-prescribed, efficacy of, in the treatment of toothache, 56
Arch length, pre-Columbian Indian, effect of attrition on, 154
Arteritis, giant-cell, presenting to the dentist: a need for urgent diagnosis, 356
Attrition, effect of, on the pre-Columbian Indian arch length, 154
Autopolymerizing, levels of residual monomer in, effect of process variables on dental acrylic resin, 80

Bates J. F.: *see* Stafford G. D.
Bedi R. and Brown C. P. M.: Behavioural principles underlying dietary instruction, 35
Behavourial principles underlying effective dietary instruction, 35
Bohrer D., Hirschfeld Z. and Gedalia I.: Fluoride uptake *in vitro* by interproximal enamel from dental floss impregnated with amine fluoride gel, 271
Book Reviews, 89, 182, 274, 362
Bounded saddles, support of, 139
Brown C. P. M.: *see* Bedi R.

Calder I. M. and Ramsey J. D.: Ondontocrexis—the effects of rapid decompression on restored teeth, 318
Candida, prevalence of oral carriers of, in patients with tongue abnormalities, 313
Causton B. E. (ed.): Dental materials: 1980 literature review. Part 1, 1
Causton B. E. (ed.): Dental materials: 1980 literature review. Part 2, 95
Chen C. P.: *see* Mueller H. J.
Children who have refused operative dentistry, use of Entonox as a sedation agent for, 306
Chomyszyn-Gajewska M.: A microbiological study of one-day supragingival dental plaque, 334
Chong L. C.: Movement of maxillary complete dentures— a Kinesiographic study, 257
Cleaton-Jones P. E.: *see* Langenegger J. J.
Cobalt samarium (Co_5Sm) magnets, efficiency of, as retention units for overdentures, 324
Commercial and political influences on dental health, 159
Crawford A. N.: *see* Warren V. N.
Cruickshanks-Boyd D. W.: Physical metallurgy of dental amalgams. 2. Microstructure, 41
Cruickshanks-Boyd D. W.: Physical metallurgy of dental amalgams. 3. Transverse strength and fracture behaviour during setting, 214

Dawe D. T.: The histopathology of the apical area where conservative endodontic treatment has failed, 237
Decompression, rapid, effects of, ondontecrexis—on restored teeth, 318
Dental amalgams, physical metallurgy of, 3. Transverse strength and fracture behaviour during setting, 214
caries, aetiology of, role of sugar in, 189
health, influences on, commercial and political, 159
materials: 1980 literature review. Part 1, 1
materials: 1980 literature review. Part 2, 95
Dentures, complete, maxillary, clinical deformation of, 224
movement of—a Kinesiographic study, 257
Dietary instruction, effective, behavioural principles underlying, 35
Dry socket, treatment of, unusual reaction after, 245

Economics of dentistry, developing—some concerns for the future in the USA, 283
Ellis B.: *see* Lamb D. J.
Endodontic therapy, glutaraldehyde in: philosophy and practice, 63
Entonox, use of, as a sedation agent for children who have refused operative dentistry, 306

Farah J. W.: *see* MacGregor A. R.
Fe–Cr–Mo wire properties of, 71
Fluoride uptake *in vitro* by interproximal enamel from dental floss impregnated with amine fluoride gel, 271

Gedalia I.: *see* Bohrer D.
Geissler P. R.: The mandibular pain dysfunction syndrome: an assessment of its treatment, 341

Giant-cell arteritis presenting to the dentist: a need for urgent diagnosis, 356
Glantz P. O. and Stafford G. D.: Clinical deformation of maxillary complete dentures, 224
Glutaraldehyde in endodontic therapy: philosophy and practice, 63
Gold posts, cast, identical, method of producing, for experimental purposes, 151
Greater palatine foramen, relationship of, to the molar teeth and pterygoid hamulus in human skulls, 249

Hazleman B. L.: *see* Jones J. G.
Hirschfeld Z.: *see* Bohrer D.
Histopathology of the apical area where conservative endodontic treatment has failed, 237
Holloway P. J. (ed.): Commercial and political influences on dental health, 159
Holloway P. J. (ed.): The role of sugar in the aetiology of dental caries, 189
Huggett R.: *see* Stafford G. D.

Influences, commercial and political, on dental health, 159

Joint sounds, temporomandibular, analysis of, 346
Jones J. G. and Hazleman B. L.: Giant-cell arteritis presenting to the dentist: a need for urgent diagnosis, 356
